

ExoHair; Follicle Protectant Solution; Quality Control Tests

Quality Control Tests for sterility, endotoxin, mycoplasma, pH, and conductivity are conducted on the ExoHair product. Subsequently, the product, along with the final product certificate containing the test results, is provided to the user.

Results of endproduct	QUALITY CONTROL RESULTS		
	Analysis	Analysis Result	Reference Value
	pH	7,02	-
	Conductivity	299 mOsmol/kg	-
	Mycoplasma	Negative	Negative
	Endotoxin	0 EU/ml (Undetected)	Suitable (<0,2 EU/ml)
	Aerobic and Anaerobic Sterility Analysis	Negative	Negative in 5 days
